## VIBEKE SCOTT TO LAUNCH THEIR SECOND COLLECTION

The upcoming brand is adding a full collection

Copenhagen, Denmark, August 2017 - Vibeke Scott is participating at REVOLVER TRADE SHOW launching an exquisite full SS18 collection named VIENNA-PARIS-ODESSA.

The collection focus on this beautiful triangle of cities of the Belle Époque. With Vibeke Scotts sure touch of handicraft and high quality the collection summarise the global beauty of the Belle Epoque blended into a Scandinavian touch.

Besides the classic silk velvet line this collection also presents a **total terry comfort** line, a beautiful **heavy drape silk** line and **need-to-have jersey** line.

As for all Vibeke Scotts designs they are meant to live long sustainable lives: originally made as beautiful loungewear, but often bought as party wear and finally ending up as home wear. Vibeke Scotts costumers report back that they use their Vibeke Scott styles for many years in many ways. And that was just our purpose in making handcrafted quality clothes.
